The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 20-26 and 28-31 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Ou et al. 4655842. The reference teaches in the examples treating vermiculite ore with lithium citrate in water for 24 hours, washing and drying. Ou only differs in not exemplifying the claimed process; the examples in toto teach all the pieces. The ore is 70 mesh (.210 mm). The amount of material (claims 23, 24) is taught in col. 3. Performing the claimed steps is an obvious expedient to optimize formation of the desired product; In re Boesch 205 USPQ 215. Concerning claim 21, using the claimed size is an obvious expedient to treat vermiculite ore.

Applicant's arguments filed 6/14/07 have been fully considered but they are not persuasive. The claims and reference put vermiculite and citrate in water and wash. No difference is seen in the effect gained. The claims are open to whatever additional steps are alleged to be performed by Ou. No differences are seen in the product. It is not seen why Ou is said to require shearing force; this is not exemplified. Claim 20 does not recite a composition or method of use; if it did (or is amended to do so), it would be restricted. Claim 27 seems to contradict the arguments; long immersion time increases the chance of exfoliation.

Ou 5102464 is of interest but not applied in order to avoid duplication of rejection. Ethanol is misspelled in claim 20.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 1754

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
